

# The Eco-Schools Programme

## Voices from Tanzania

- Watch the film about Victor og Mohamad and their lives as students on an Eco-Schools in Tanzania  
<https://vimeo.com/758622634/2601a39b41>

## Discussion and reflection

- Climate change plays a major role in education in Tanzania -why?
- How can climate change prevent pupils from going to school?
- And why is education important in order to fight the climate changes?
- What are micro-projects? How can they help the community?

## Research

- Visit the homepage of the Eco-Schools Programme in Tanzania. <http://www.tfcg.org/what-we-do/communicate/eco-schools-programme-in-tanzania/>
- How do the pupils of Tanzanian Eco-Schools, according to the homepage, engage with their community to encourage change and protect the environment?
- Discuss: What can your school do to encourage change?

## Action

- In groups, produce a short film to encourage your school to become an Eco-School.

## Evaluating

- Present your films in class.
- Discuss your films?
